SUMMARY

Software Engineer with hands-on experience building React and Laravel applications, including a commercial accommodation-management platform. Skilled in RESTful API development, MySQL, role-based access control, payment workflows, and API-driven frontend and backend architecture. Additional experience developing Python-based AI workflows, automation systems, and an IoT-integrated Birth Record Communication System.

TECHNICAL SKILLS

Languages: JavaScript, PHP, Python, Java, SQL

Frontend: React, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Laravel, RESTful APIs, Laravel Sanctum

Databases: MySQL

Automation and Integrations: Stripe Checkout, Stripe Webhooks, Gemini API, FFmpeg, n8n, Docker

Tools and Platforms: Git, GitHub, Visual Studio Code, Hostinger, XAMPP, NetBeans, IntelliJ IDEA

Concepts: Role-Based Access Control, Object-Oriented Programming (OOP), Relational Database Design, Responsive Web Design

PROJECTS

Alishan Accommodation Management System

<https://alishan.lt/>

Commercial Client Project - Full-Stack Web Application

React, Laravel, MySQL, Sanctum, Stripe, Tailwind CSS

- Developed and Deployed an API-driven accommodation management platform using React frontend and Laravel REST API
- Implemented booking approval and rejection, room or bed assignment, contract selection, payment scheduling, and passport or residence-permit verification
- Implemented secure booking-status tracking and flexible full or installment payment options; currently integrating Stripe Checkout, webhook-based payment confirmation, and automated reminder and confirmation emails

DiaBuddy Health Monitoring System

<https://github.com/Saj1d-prompt/DiaBuddyHealthMonitoringSystem>

Full-Stack Web Application

React, Laravel, CSS, MySQL, Sanctum

- Developed a full-stack diabetes-management platform enabling patients to record blood-glucose information, maintain profiles, and access health reports
- Implemented role-based portals and dashboards for patients, doctors, and administrators
- Built appointment scheduling, consultation, prescription, and medical-report management workflows

Multi-Agent LLM System for User Story Compliance

<https://github.com/Saj1d-prompt/Multi-agent-LLM>

AI System

Python, Gemini API

- Built a multi-agent AI workflow using Python and the Gemini API to analyze and refine software user stories
- Designed specialized evaluation agents to assess clarity, completeness, consistency, and Agile compliance
- Combined Gemini-generated recommendations with rule-based validation to produce structured improvement feedback

Certificate Management System

<https://github.com/Saj1d-prompt/CertificateManagementSystem>

Full-Stack Web Application

HTML, CSS, JavaScript, PHP, MySQL

- Developed a web application for managing SSC and HSC certificate requests, processing, and digital records
- Implemented role-based access with separate user and administrator dashboards
- Built request submission, approval, and status-tracking workflows to organize certificate processing

PUBLICATIONS

M. N. Islam, **S. U. Islam**, T. I. Afra, and M. Shidujaman, "CNN-Based Automated Detection of Mango Leaf Diseases Using Transfer Learning," *Presented at the 11th International Conference on Information and Communication Technology for Intelligent Systems (ICTIS), Bangkok, Thailand, April 2026; Springer LNNS proceedings forthcoming.*

EXPERIENCE

Data Annotator

June 2026 – Present

Part-time

Babel Audio

- Annotate and validate audio datasets for speech-recognition and language-processing systems
- Perform quality-assurance checks on transcriptions, speaker labels, and audio metadata
- Follow project-specific annotation guidelines and collaborate with remote teams to meet quality standards and deadlines

AI Intern

May 2026 – Present

IT Department

Sticker Visa

- Research and verify international university information, including academic programs, admission requirements, and tuition fees
- Produce AI-assisted written content and promotional videos, including video generation and editing
- Built automated video-editing and multi-logo rendering workflows using FFmpeg, n8n, and Docker
- Test the organization's chatbot for functionality, response accuracy, and usability, and document identified issues

Student on Duty

January 2025 – December 2025

Department of Computer Science and Engineering

Independent University, Bangladesh

- Assisted faculty members with academic coordination and departmental administrative operations
- Managed course materials, marksheets, and academic documentation
- Coordinated departmental activities and communicated academic information to students and faculty members

EDUCATION

Independent University, Bangladesh

2022 – 2025

Bachelor of Science in Computer Science and Engineering

CGPA: 3.59

Islamia Govt. College, Sirajganj

2020

Higher Secondary Certificate (HSC)

GPA: 5.00

B.L. Govt. High School, Sirajganj

2018

Secondary School Certificate (SSC)

GPA: 4.94

CERTIFICATIONS

- CCNAv7: Introduction to Networks – Cisco Networking Academy
- Web Development – Sololearn

LEADERSHIP AND ACTIVITIES

Membership Development Coordinator

IEEE Computer Society IUB Student Branch Chapter

2024 – 2025

Volunteer

IUB CSE Annual Research Day (CARD)

2025

Volunteer

Droidcon Bangladesh Android Developer Conference

2025
